

AUTOMOTIVE

...WE MAKE JACKS THAT WORK!™

MID-RISE LIFTS

48" LIFT

FEATURES

- Portable trolley supports the pump and maneuvers the lift from one service bay to another.
- 4-3/4" low height for easy drive on and off.
- A set of four 2-1/8" riser plates and four swivel rubber lifting pads are included.

37" Mid-Rise and Low-Rise Pit Lift Also Available

FLOOR JACKS

2 TON

FEATURES

- Fast acting pump with dual pressure seals provides maximum lift arm extension in eleven incremental pump strokes. The model 71202 not only lifts fast to the load but also lifts the load fast.
- The strongest 2 ton capacity jack chassis in the industry includes 3/8" thick side plates.

FEATURES

- 3-3/4" low lift height; 20" high lift height.
- Safety bypass system protects cylinder.
- Safety overload system prevents jack from being used beyond its rated capacity.
- Heavy duty chassis for added strength and dependability.

2-1/4 TON

STANDS

FEATURES

- U.S. Patent No. 5180131 spring loaded pawl provides constant locking pressure against lifting column.
- Four legged base with foot pads for added strength and a more secure footing on asphalt.

ENGINE STANDS

FEATURES

- Fully adjustable engine mounting head.
- Long handle and 360 degree rotating head easily position engine.

TRANSMISSION JACKS

FEATURES

- Fully adjustable universal saddle with adjustable corner brackets and safety chain.
- Safety overload system prevents jack from being used beyond its rated capacity.
- Foot operated pump and lowering pedals allow use of both hands to position and align saddle with transmission.
- 2 times faster rising action without load due to patented double-pump design.

1/2 TON CAPACITY

U.S. Patent No. 5975496 double pump design.

FUEL TANK SADDLE

FEATURES

- Four adjustable support risers with rubber pads protect the fuel tank and can be quickly positioned to fit many shapes and sizes.

QUICK-ADJUST SADDLE

FEATURES

- Four low profile ratcheting arms quickly and easily adjust to the transmission pan configuration.

FEATURES

- Fully adjustable universal saddle with adjustable corner brackets and safety chain.
- Safety bypass system prevents damage to cylinder.
- Safety overload system prevents jack from being used beyond its rated capacity.
- Full 360 degree rotating pump handle operates in any position.

1/2 TON CAPACITY
